

MAYFIELD HEIGHTS

CONNECTIVITY STUDY

FUNDED BY A GRANT FROM THE NORTHEAST OHIO AREAWIDE COORDINATING AGENCY

Community Engagement Survey

Overview: The City of Mayfield Heights is excited to announce a new planning project thanks to a grant secured through the Northeast Ohio Areawide Coordinating Agency (NOACA) Transportation for Livable Communities Initiative (TLCI). The Mayfield Heights Connectivity Study will identify ways to improve the transportation needs of pedestrians and cyclists throughout the City. The study is just underway and is anticipated to be completed by April 2019.

Survey Objective: The Mayfield Heights Connectivity Study will identify key improvements that will support the community's safe connectivity to schools, employment, shopping, and recreational amenities within and beyond the City. Input from the community is crucial to the success of this project and this survey is the first step in a continued public engagement effort throughout the project. The survey contains 16 questions and should take no more than 10 minutes to complete.

1. Gender (answer optional)

- Male
- Female
- Non Binary
- Third Gender

2. Age (answer optional)

- 18 or younger
- 19–30
- 31–45
